## **PRESS RELEASE-----COLUMBIA GAS PROJECT**

Beginning the morning of October 6, 2020, Columbia Gas will purge and fill the 25,000 feet of gas lines that they have installed over the last few months. This is the last portion of the project involving the drilling, boring, and installation crews. The final top soil and grass seeding for the few homes that still need it will occur during the rest of this week.

TOMORROW, OCTOBER 6<sup>TH</sup>, Columbia Gas will be filling newly installed lines for the entire project. Inevitably, a smell of natural gas is expected to be present on the south end of the Village and Columbia Gas will have crews in the vicinity of the project during the process. The smell will dissipate quickly and will not pose danger for residents or property in the area.

Please call the office if you have any questions.
