Press Release----For Immediate Distribution

Coshocton Water Project Update

Tucson will be working in two locations within the Village the week of 11/23/2020. One crew will be installing additional new water main infrastructure on 4th Street between Center and Oak Street. A second crew will be installing new individual service lines to homes on 7th Street. These new lines will be turned on once installed. Individuals will still be using West Lafayette water, the water will simply be flowing off of the newly installed water mains.

No disruption in your water supply or quality should be anticipated. Any significant loss of pressure or discoloration of water lasting longer than 5 minutes should be reported to the Administration Office immediately at 740-545-7834.

Thank you.
